Financial Performance

During the year under review, your Company recorded total income of Rs. 5417.19 Lacs as against Rs. 7357.44 Lacs in the previous year. The financial performance at the EBIDTA level was subdued with EBIDTA declining by 10.72% as compared to the previous year. The pricing pressure in the optical media storage industry has put strain on the operations of your Company. Keeping pace with the changing dynamics of the optical storage industry and striving in a very competitive market your Company has still been able to perform well during the year.

To minimize the risk of the business model, your Company is diversifying into the high growth Solar Photovoltaic industry. Your Directors are hopeful of improving the results of the Company in the upcoming years.

Brand Recognition

The Brand 'Eurovision' is well recognized in the market. It is premium brand amongst the recognized domestic brands in the optical storage media industry. The Certification ISO 9001:2008 for Quality Management System (QMS), Certification ISO 14001:2004 for Environment and OHSAS 18001:2007 for safety, has strengthened its image and has indirectly contributed to the Company's productivity over the years.

Diversification

Your Company has moved forward and set up a Solar Photovoltaic Cell manufacturing plant for generation of electrical energy, with a capacity of 40MW per year at Taluka Bhachau, District Kutch, Gujarat. This new field of business is synergistic with Company's existing business and will leverage on its core competencies in the areas of precision, high technology, mass manufacturing and project management.

This Solar Photovoltaic Cell plant is being set up in a sector specific Special Economic Zone (SEZ) developed by the

Company. Your Company had made an application to the Gujarat State Government for setting up a Special Economic Zone for Non Conventional Energy including Solar Energy Equipments / Cell in an area of 11-63-47 hectares at Village: Shikara, Taluka:Bhachau, District: Kutch, Gujarat on November 20, 2007. Your Company had also made an application to the Central Government on November 30, 2007 for the same.

On the basis of recommendation of the Special Economic Zone Development Authority, the State Government had recommended the proposal to the Government of India on July 1, 2008. On August 2, 2008 the Board of Approvals, New Delhi formally approved your Company's application for setting up the SEZ. Your Company got the formal approval from Ministry of Commerce & Industry, Department of Commerce dated October 30, 2008. Your SEZ was notified on April 23, 2009 and published in the Gazette of India.

The Company has procured the Solar Photovoltaic Cell manufacturing production line from OTB Solar B.V (Netherlands). The construction of the building and erection of plant and machinery is in full swing and the Board of Directors is confident that the company would have achieved commercial production before we meet for the Annual General Meeting.

The setting up of complex nature and complicated process of Solar Photovoltaic Cell plant required high skill, perfection and dedication. In this endeavour we thank all our suppliers of civil items, contractors, architects, equipments and machinery suppliers, banks, government institutions and departments and employees for creating a team work and putting all their efforts for setting up the plant.

Initial Public Offering

The Company with a view to fund its Solar Photovoltaic Cell Plant came out with the maiden Initial Public Offering (IPO) of 8800049 Equity Shares of Rs. 10/- each for cash at a price of Rs. 75/- per equity share aggregating to Rs. 6600 Lacs through 100% book building process. The issue opened for subscription on September 22, 2009 and closed on September 24, 2009 and was oversubscribed by 1.81 times. The shares issued under IPO were allotted on October 7, 2009 and listed on October 15, 2009 on Bombay Stock Exchange Limited and National Stock Exchange of India Limited. The total paid-up share capital after the said issue is Rs. 2380 Lacs.

The Board takes this opportunity to thank the investors for their overwhelming response to the Issue and the confidence reposed by them in the Company.

Dividend

Your Directors have decided to conserve the internal resources for the business requirements. Accordingly, your Directors do not recommend any dividend for the financial year under review.

Mr. Sunil Nemani, Chief Finance Manager, has been appointed as the Compliance Officer of the Company.

TERMS OF REFERENCE:

The terms of reference of the Shareholders / Investors Grievance Committee is to supervise and ensure the following:

- Efficient transfer of shares; including review of cases for refusal of transfer / transmission of shares and debentures;
- Redressal of shareholder and investor complaints like transfer of shares, allotment of shares, non-receipts of the refund orders, right entitlement, non-receipt of Annual Reports and other entitlements, non-receipt of declared dividends, etc;
- Issue of duplicate / split / consolidated share certificates;
- Listing of shares;
- Review of cases for refusal of transfer / transmission of shares and debentures;
- Reference to statutory and regulatory authorities regarding investor grievances;
- And to otherwise ensure proper and timely attendance and redressal of investor queries and grievances

A total of 29 complaints / correspondences were received and replied to the satisfaction of the shareholders during the year ended March 31, 2010. There were no complaints outstanding as on March 31, 2010. No investor grievances remained unattended / pending for more than 30 days.

(c) Remuneration Committee

Composition, names of members and terms of reference:

The Remuneration Committee comprises of three Independent Directors and one Executive Director. During the year

under review no meeting was held.

The composition of the Remuneration Committee as on March 31, 2010 was as follows:

Name of the member	Designation
Mr. Jatin Chhadva	Chairman
Mr. Pravin Gala	Member
Mr. Chirag Shah	Member
Mr. Deepak Savla	Member

TERMS OF REFERENCE:

The terms of reference of the Remuneration Committee are as follows:

- To recommend to the Board, the remuneration packages of the Company's Managing/Joint Managing/Deputy Managing/Whole time/Executive Directors, including all elements of remuneration package (i.e. salary, benefits, bonuses, perquisites, commission, incentives, stock options, pension, retirement benefits, details of fixed component and performance linked incentives along with the performance criteria, service contracts, notice period, severance fees, etc.);
- To be authorised at its duly constituted meeting to determine on behalf of the Board of Directors and on behalf of the shareholders with agreed terms of reference, the Company's policy on specific remuneration packages for Company's Managing/Joint Managing/Deputy Managing/Whole-time/Executive Directors, including pension rights and any compensation payment;
- To implement, supervise and administer any share or stock option scheme of the Company

Remuneration Policy:

The remuneration policy of the Company is directed towards rewarding performance, based on review of achievements on a periodic basis. The remuneration policy is in consonance with the industry standards.

Executive Directors

The aggregate value of remuneration paid for the year ended March 31, 2010 to the Managing Director and Whole-time Directors is as follows:

Name of the Director	Designation	Remuneration (Amount in Rs.)
Mr. Hitesh Shah	Managing Director	6,00,000
Mr. Suresh Shah	Whole Time Director	6,00,000
Mr. Chirag Shah	Whole Time Director	6,00,000
Total		18,00,000

Non Executive Directors

No remuneration is paid to Non Executive Directors except sitting fees at the rate of Rs.2500/- for each meeting attended by them. The sitting fees paid during the financial year 2009-10 is as under:

Name of the Director	Sitting Fees paid (Amount in Rs.)
Mr. Nenshi Shah	17500
Mr. Rayshi Shah	15000
Mr. Anil Mandevia	7500
Mr. Deepak Savla	2500
Mr. Jatin Chhadva	7500
Mr. Pravin Gala	2500
Mr. Vinod Shah	10000
Total	62500

(4) General Body Meetings

Details of Annual General Meetings held during the preceding three years are as follows:

Financial Year	Date	Time	Location
2006-2007	September 26, 2007	11.00 a.m.	Boston House, Gr. Floor, Suren Road, Chakala, Andheri (East), Mumbai - 400093
2007-2008	September 29, 2008	4.30 p.m.	Boston House, Gr. Floor, Suren Road, Chakala, Andheri (East), Mumbai - 400093
2008-2009	September 29, 2009	4.30 p.m.	Boston House, Gr. Floor, Suren Road, Chakala, Andheri (East), Mumbai - 400093

Special resolutions passed at the last three Annual General Meetings:

2006-07:

- (i) A special resolution was passed for amendment of main object clause and objects incidental/ancillary to the main object of Memorandum of Association of the Company.
- (ii) A special resolution was passed for alteration of Articles of Association of the Company.
- (iii) A special resolution was passed pursuant to Section 81 (1A) of the Companies Act, 1956 for entering into the Listing Agreement with the stock exchanges.
- (iv) A special resolution was passed pursuant to the applicable provisions of the Foreign Exchange Management Act (FEMA), 1999, by Foreign Institutional Investors for investment up to 49% of the Equity Share Capital of the Company.

2007-08:

- (i) A special resolution was passed pursuant to the provisions of Sections 198, 309, 310 and other applicable provisions of the Companies Act, 1956 read with Schedule XIII to the Companies Act, 1956 for increase in remuneration payable to Mr. Suresh Shah, Whole-time Director of the Company.
- (ii) A special resolution was passed pursuant to the provisions of Sections 198, 309, 310 and other applicable provisions of the Companies Act, 1956 read with Schedule XIII to the Companies Act, 1956 for increase in remuneration payable to Mr. Chirag Shah, Whole-time Director of the Company.
- (iii) A special resolution was passed pursuant to the provisions of Sections 198, 309, 310 and other applicable provisions of the Companies Act, 1956 read with Schedule XIII to the Companies Act, 1956 for increase in remuneration payable to Mr. Hitesh Shah, Managing Director of the Company.

No resolution was passed last year by Postal Ballot. No resolution is propose to be passed at the ensuing Annual General Meeting by Postal Ballot.

(5) Disclosures**(a) Related-Party Transactions**

Related party transactions are defined as transactions of the Company of material nature, with promoters, Directors or with their relatives; its subsidiaries etc. that may have potential conflict with the interest of the Company at large. None of the transactions with any of the related parties were in conflict with the interest of the Company.

Details on material significant related party transactions are given in the appended financial statement under notes to the accounts annexed to the financial statements.

(b) Compliances by the Company

The Company has complied with the requirements of the Stock Exchanges, SEBI and other statutory authorities on all matters relating to the capital market. No penalties or strictures have been imposed on the Company by the Stock Exchanges, SEBI or other statutory authorities.

(c) Whistle Blower Policy

Though there is no formal whistle blower policy, the Company takes cognizance of complaints made and suggestions given by the employees and others. Even anonymous complaints are looked into and whenever necessary, suitable corrective measures are implemented.

(d) Compliance with mandatory and adoption of non-mandatory requirements

The Company has complied with the mandatory requirements of the Code of Corporate Governance as stipulated under Clause 49 of the Listing Agreement with the Stock Exchanges.

Compliance with non mandatory requirements are as under:

- The Company has a remuneration committee.
- The Company's financial statements are unqualified.

(e) Code of Conduct

The Company has laid down a code of conduct for the Directors, senior Management and employees of the Company. The Code has been posted on the website of the Company. A declaration to the effect that the Directors and senior Managerial personnel have adhered to the same, signed by the Managing Director of the Company, forms part of this report.

(f) Disclosure of Accounting Treatment

In the preparation of the financial statement, the Company has followed accounting standards issued by the Institute of Chartered Accountants of India, to the extent applicable.

(g) Disclosure of Risk Management

The Company has formulated and laid down procedures to inform Board members on risk assessment and minimisation procedures which is periodically reviewed by the Board.

(h) CEO/CFO Certification

In terms of Clause 49(v) of the Listing Agreement, Mr. Hitesh Shah, Managing Director and Mr. Sunil Nemani, Chief Finance Manager, have submitted a certificate to the Board of Directors in the prescribed format for the year under review.

(i) Review of Directors' Responsibility Statement

The Board in its report has confirmed that the annual accounts for the year ended March 31, 2010 have been prepared as per applicable accounting standards and policies and that sufficient care has been taken for maintaining adequate accounting records.

(j) Proceeds from public issue

During the year under review the Company came out with an initial public offer of 88,00,049 equity shares of Rs. 10 /- each at a price of Rs. 75/- per share. The proceeds of the IPO have been utilised for the purposes as stated in the offer documents. The details of utilisation are provided to the Audit Committee and Board of Directors at their respective meetings and the same are also provided in the notes to accounts of the financial statements appended herewith.

(6) Means Of Communication

Quarterly Results: The Quarterly Results of the company are published in Business Standard (English) and Mahanayak (Marathi). The same were also displayed on the Company's website i.e. www.euromultivision.com.

Website: The Company's website www.eromultivison.com contains a separate dedicated section Investor Relationship where shareholders information is available. Un-audited quarterly results, annual results and shareholding pattern, code of conduct for the Board of Directors are also available on the website in a user friendly and downloadable form.

Management Discussion and Analysis forms part of the Annual Report.

Certificate From Auditors Regarding Compliance Of Conditions Of Corporate Governance

To the Members of

Euro Multivision Limited

We have examined the compliance of conditions of Corporate Governance by Euro Multivision Limited, for the year ended on March 31, 2010, as stipulated in clause 49 of the Listing Agreement of the said Company with the Stock Exchanges.

The compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has generally complied in all material respects with the conditions of Corporate Governance as stipulated in the above mentioned Listing Agreement.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

MANAGEMENT DISCUSSION AND ANALYSIS

Company Overview

Euro Multivision Limited (EML) incorporated on April 29, 2004, is the second largest player in manufacture of Optical Storage Media (i.e. CDR's and DVDR's) (Source: Optical Disk Manufacturers Welfare Association), in the country in terms of installed manufacturing capacities (1800 Lacs units per annum). The Company has received ISO 9001:2008, ISO 14001:2007 and OHSAS 18001:2007 certifications. In a short span of four years the company has proven itself and succeeded in establishing its brand in the market. The run-away growth of Indian stronghold sectors such as IT, music, entertainment and motion pictures, etc play a vital role and stimulate the growth of the optical storage industry.

In the road ahead towards growth and diversification, the Company has set up a solar photovoltaic cell manufacturing unit of 40MW capacity in a self owned sector specific Special Economic Zone (SEZ). EML will be one of the companies who will enter the growing Photovoltaic Business at an early stage considering the global and domestic requirement for renewable energy & present status. The Company would be able to preempt competition and capture demand by establishing high standard product.

Economic growth the world over is driven by energy, whether in the form of finite resources such as coal, oil and gas or in renewable forms such as hydroelectric, wind, solar and biomass, or its converted form, electricity. This energy generation and consumption powers the nation's industries, vehicles, homes and offices. It also has significant impact on the quality of the country's air, water, land and forest resources. For future growth to be both rapid and sustainable, it needs to be as resource efficient and environmentally benign as possible.

The growing demand for renewable energy in India and world over and its cumulative growth would act as a strong catalyst for the Solar Energy sector. Moreover various incentives provided by government in India and world over, would boost the sectoral growth. Hence a very bright future for the solar energy related industries is seen in the days to come.

Market end-use sectors

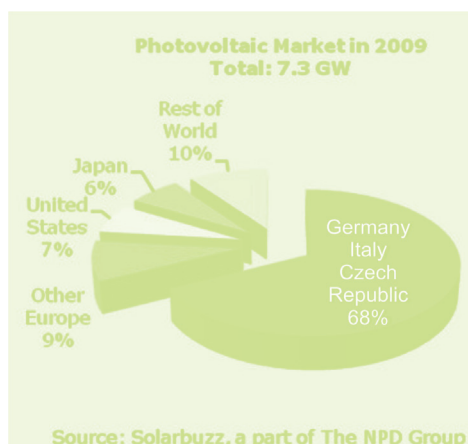

There are four end-use sectors with distinct markets for Solar PV:

- Residential systems (typically up to 20 KW systems on individual homes)
- Commercial systems (typically up to 1 MW systems for commercial office buildings, schools, hospitals, and retail)
- Utility scale systems (starting at 1 MW, mounted on buildings or directly on the ground)
- Off-grid applications (varying sizes)

These different applications have different system costs and compete at different price levels. Until the mid-1990s, most systems were stand-alone, off- grid applications such as telecommunications units, remote communities and rural electricity supply. Since then, the number of grid-connected systems has increased at a rapid pace due to incentive schemes introduced in many countries. The majority of grid-connected systems are installed as BIPV systems. However, ground-mounted large scale installations with a generation capacity in the tens of megawatts have gained a considerable market share in recent years. As a result, off-grid PV systems now constitute less than 10% of the total PV market; however, such applications still remain important in remote areas and in developing countries that lack electricity infrastructure.

Global Overview

The world solar photovoltaic (PV) market installations reached a record high of 7.3 gigawatt (GW) in 2009, representing a growth of 20% over the previous year. In addition, the PV industry generated \$38.5 billion in global revenues in 2009, while successfully raising more than \$13.5 billion in equity and debt, up 8% on the prior year.

European countries accounted for 5.60 GW, or 77% of world demand in 2009. The top three countries in Europe were Germany, Italy and Czech Republic, which collectively accounted for 4.07 GW. All three countries experienced soaring demand, with Italy becoming the second largest market in the world. In contrast, Spanish demand in 2009 collapsed to just 4% of its prior year level. Of total European demand, net solar cell imports accounted for 74% of the total.

The third largest market in the world was the United States, which grew 36% to 485 MW. Following closely behind was a rejuvenated Japan, which took fourth spot, growing 109%. The analysis in the new Marketbuzz 2010 report references 112 countries across the world in 2009.

World solar cell production reached a consolidated figure of 9.34 GW in 2009, up from 6.85 GW a year earlier, with thin film production accounting for 18% of that total. China and Taiwanese production continued to build a share and now account for 49% of global cell production.

The Top 7 polysilicon manufacturers had 114,500 tonnes per annum of capacity in 2009, up 92% on their 2008 level, while the Top 8 wafer manufacturers accounted for 32.9% of global wafer capacity in 2009.

Looking forward, the industry will return to high growth in 2010 and also over the next 5 years. Even in the slowest growth scenario, the global market will be 2.5 times its current size by 2014. Under the production led scenario, the fastest growing forecast, annual industry revenues approach \$100 billion by 2014.

(Source: <http://www.solarbuzz.com/Marketbuzz2010-intro.htm>)

Global Future Outlook

After extremely challenging industry conditions in 2009, characterized by excess manufacturing capacity and accentuated by a 2 GW demand reduction in Spain after a major policy adjustment, the PV industry will return to a growth path in 2010, resulting in a global market of 7.4 GW in that year, based on a mid-range scenario. This is up from the 5.95 GW market in 2008.

European country markets are characterized by wide variation in customer and application segments as well as differing barriers to market development. Germany, Italy and Spain will claim an 83-88% market share in Europe by 2010, while emerging European PV markets will contribute 2.9 GW to market demand by 2013.

In the Asian and Pacific region, emerging PV markets in Australia, China and India will soon join Japan and South Korea as major regions contributing to global market demand over the 5 year forecast period. This will transform China and India's primary industry role from just being a manufacturing hub to an engine for PV market demand growth.

With distinct funding programs and incentive policies at the national and local level collectively in India and China targeting systems smaller than one megawatt, these countries represent a significant market opportunity over the next five years. This leaves the primary industry challenge to ensure that the existing suites of policies, and those under development, allow these projects to reach fruition.

In the US, 97% of the market size of the mid-range forecast in 2010 is already backed up by identified funding sources, projects under development and Renewable Portfolio Standard driven demand.

Indian Overview

Solar Power - A solution to the Indian power scenario

Due to its proximity to the equator, India receives abundant sunlight throughout the year. Solar PV solution has the potential to transform the lives of 450 million people, who rely on highly subsidized kerosene oil and other fuels, primarily to light up their homes. Renewable energy source is a practical solution to address the persistent demand supply gap in the power industry. The following features of solar power make it the most viable renewable source of energy for India:

- Solar energy is available in abundance
- Available across the country - unlike other renewable sources, which have geographical limitations
- Available throughout the year
- Decentralized / off-grid applications - addressing rural electrification issues
- Modularity and scalability
- With the launching of Jawaharlal Nehru National Solar Mission (JNNSM), the relevance and advantages will be brought into a sharper focus to meet the energy demand in an elegant and clean way. The PV approach is particularly suited for the geographical and socio-economic features of our country having highly skewed energy distribution between urban and rural areas. The JNNSM has proposed a feed in tariff rate of Rs. 17.91/- for solar PV power plants with a power purchase agreement for 20 years. Special provisions under JNNSM are expected to accelerate the growth of PV industry and make India emerge brightly in the global PV scenario.

Solar PV applications in India

- The range of applications for solar PV in India is very different from the global mix. Globally, grid connectivity accounts for nearly 75% of the installed capacity and off-grid lighting and consumer applications for the balance 25%. Currently, PV installations in India, almost entirely consist of offgrid connectivity and small capacity applications, used mostly for public lighting, such as street lighting, traffic lighting and domestic power back up in urban areas and small electrification systems and solar lanterns in the rural areas. In recent years, it is also being used for powering water pumps for farming and small industrial areas. Government organizations like railways, telecom and other agencies are the major consumers of PV solar systems in India.

The typical applications & installed base of solar PV systems in India as of December 2009 is given below:

Product	Rating
Solar Lanterns	2.5 - 5 Wp
Solar PV for individuals house holds	2 - 15 Wp
SPV Blinkers	20Wp
Solar Home Lighting System	18/37/74 Wp
Solar Street Lighting System	74 Wp
Traffic Signals	Up to 100 Wp
Solar Power Plants for Village	1-5 KWp

KEY GROWTH DRIVERS IN SOLAR ENERGY INDUSTRY

Solar power generation is one of the fast growing renewable sources of electricity in recent years. The following factors will continue to drive the growth of the global solar energy industry:

- Global warming and environmental concerns whilst electric power demand continues to grow;
- Government incentives and renewable energy laws for solar power;
- The customers and end-users to switch towards solar power as a main source of renewable energy; and
- Declining cost of PV modules resulting from technology advancement, economies of- scales arising from increasing scale of production, etc. would contribute to the usage of solar power becoming more affordable.

Building of a Skilled Workforce and Industrial Relations

Efforts are needed to increase the number of qualified workers for a growing solar industry along the value chain and the lifecycle of PV product development, from research to system installation and maintenance. A well-trained workforce is necessary to ensure technology development, quality installations, cost reductions, and consumer

confidence in the reliability of solar installations. These activities should focus on building the capacity of educational institutions to respond to the increased demand for high-quality training for solar installers and code officials. Governments should encourage providing training and education to create a skilled PV workforce along the full value chain. This involves developing outreach programmes that target specific professional groups (e.g., local government planners, architects, home builders).

The Company and its management value the dedication of its employees and acknowledge their contribution in achieving the long term and short term goals of the Company. Human Resources Development activities predominantly comprised of training and development of employee. The total strength of employees is 225 which includes Engineers, Managers, Supervisors, etc.

Industrial Relations through out the year continued to remain very cordial and satisfactory.

SWOT Analysis

Strengths

Company Strengths

- Strong promoter backing
- Strong management with proven execution capabilities
- Technology advantage
- Location advantage (Near Kandla and Mundra Port)
- Highly skilled manpower
- Global & local sourcing capabilities
- Synergistic with CDR/DVDR business

General Strengths

- Plenty of sun rays
- Renewable unlike coal or the rest which are non-renewable and hard to maintain
- Safe, cheap and good for the environment
- Carbon credits
- Government subsidies and incentives
- Growth of World PV production year on year increasing
- Increase in Indian PV Export
- Domestic Manufacturing base for PV modules design

Weaknesses

Company Weaknesses

- No prior experience in PV business

General Weaknesses

- Needs greater support through a national policy
- No large size installation
- Lack of technical support for remote locations
- Poor program and project designs
- Supply Chain risk of key components and materials
- Presence and trade across geographies exposes to currency risks

Opportunities

- Installed global solar capacity is expected to grow by 30-35% a year
- Central and State Governments are giving thrust via subsidies / incentives to encourage investments in Solar Energy Sector
- Increasing energy requirement, reduction of fossil fuels
- Increased awareness of green technologies amongst the public

- Overall cost of the energy technology decreases with large scale utilization
- Year on Year growth has encouraged the entrepreneurs to invest in solar energy technologies.
- Energy dependence on imports
- Impetus to domestic research
- Development of human resources
- Expand international Research & Development collaboration

Threats

- Cuts in Government subsidies / Policy changes
- Slow down in the global demand for Solar Cells and Polysilicon
- Retention of quality skilled staff
- Regular and continuous training

- Technological challenges

Risk & Concerns

New Venture Risk

Being a new entrant in the manufacturing of Solar Photovoltaic Cells, our Company has no prior experience in this Business segment which may hinder our ability to operate the plant in a commercially successful manner. Moreover stiff competition can be faced from established and/or new players in acquiring a requisite market share.

We have an understanding of the trade segment of the market. The Company has been able to establish a strong network to reach the target market for optical disc unit and will develop the markets for Solar Photovoltaic Cell product as well.

Raw Material Price Risk

The prices of basic raw material for manufacturing of CDRs and DVDRs viz. polycarbonate and silicon wafer which is a main raw material for manufacturing of PV Cell fluctuates due to uncertain prices. Such fluctuation in prices of raw material and/or our inability to negotiate at optimum market rates may affect the profitability. Any Shortage of raw materials in the world market may impact the production process.

The Company will enter into long term contracts for procurement of raw materials and consumables.

Discontinuation of any Incentive / Support Programmes

Any discontinuation of incentives/support programmes by the Government of various countries would adversely affect the demand for PV Cells.

The solar industry is at a very nascent stage and the Company do not foresee any immediate discontinuation of incentive/support programmes.

Human Resource Risk

There is significant competition from emerging sectors which poses inherent risks associated with ability to hire and retain skilled and experienced professionals.

The Company continuously carries out necessary improvements to attract and retain best talent and build intellectual capital.

Regulatory Risk

The industry is subject to various regulatory compliances under various laws of the country.

To mitigate this risk, the Company has established a compliance mechanism to ensure regulatory and legal compliances.

Technology Risk

Developments of technologically superior and cost-efficient solar PV cell plant involve significant investments. The risks of investments in innovation projects require addressing them by structured periodic reviews of all programmes and investment.

Financial Risk

Risk on account of currency fluctuation and substantial exposure to international trade may impact the profitability. Risks have to be recognized at the contractual juncture and hedged at various stages of project life cycle depending upon the nature of the transactions.

With economic slow down and credit squeeze across the world, funding has become difficult, leading to slow order inflow from affected markets like Europe and the United States leading to further liquidity pressure.

Internal Control systems and their adequacy

The Company has adequate internal control systems/procedures in place covering all facets of business. The internal control systems/procedures are reviewed periodically and updated/modified on need basis. The Company has an effective information technology system support in various important operational and financial areas to facilities control systems.

The internal control systems/procedures commensurate with the size and nature of the Company.

Disclosure on financial performance with respect to Operational Performance

During the year under review, your Company recorded total income of Rs. 5417.19 Lacs as against Rs. 7357.44 Lacs in the previous year. The financial performance at the EBIDTA level was subdued with EBIDTA declining by 10.72% as compared to the previous year. The pricing pressure in the optical media storage industry has put strain on the operations of your Company. Keeping pace with the changing dynamics of the optical storage industry and striving in very competitive market your Company has still been able to perform well during the year.

To minimize the risk of the business model, your Company is diversifying into the high growth Solar Photovoltaic industry. Your Directors are hopeful of improving the results of the Company in the upcoming years.

Solar PV Roadmap

It describes approaches and specific tasks regarding PV research, development, and deployment; financing mechanisms; grid integration; legal and regulatory frameworks; public engagement; and international collaboration. It provides regional and end-use sector projections for PV deployment from 2010 to 2050. The roadmap identifies the next decade as a critical time window in order to accelerate the development and deployment of PV technologies. Achieving this roadmap's vision will require a strong, long-term and balanced policy effort in the next decade to allow for optimal technology progress, cost reduction and ramp-up of industrial manufacturing for mass deployment.

Priority actions for the next ten years include:

- Provide long-term targets and supporting policies to build the needed confidence for investments in manufacturing capacity and deployment of PV systems.
- Implement effective and cost-efficient PV incentive schemes, which will have to be transitional and decrease over time, in order to foster innovation and technological improvement.
- Develop and implement appropriate financing schemes, in particular for rural electrification and other applications in developing countries.
- Increase R&D efforts to reduce costs and ensure PV readiness for rapid deployment, while also supporting longer-term innovations.

Statements in "Management Discussion and Analysis" describing the Company's objectives and assessments etc. may be forward looking within the meaning of applicable laws and regulations. Actual results may differ from the statements expressed therein. Important factors that could influence the Company's operations include demand and supply conditions affecting selling prices of finished goods, availability of inputs and their prices, change in Government policy, legislation and tax rates; political defense and economic development within and outside the country and other factors such as litigation and industrial relations.

AUDITORS' REPORT

To,

The Shareholders of Euro Multivision Limited

We have audited the attached Balance Sheet of Euro Multivision Limited, as at March 31, 2010, the Profit and Loss account and the Cash Flow Statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in India. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As required by the Companies (Auditors' Report) Order, 2003 issued by the Central Government of India in terms of Section 227 (4A) of the Companies Act, 1956, we enclose in the annexure a statement on the matters specified in paragraphs 4 and 5 of the said order.

Further to our comments in the annexure referred to in paragraph (3) above, we report that:

- (a) We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit;
- (b) In our opinion, proper books of account as required by law have been kept by the company so far as appears from our examination of such books ;
- (c) The Balance Sheet, Profit and Loss account and the Cash Flow Statement dealt with by this report are in agreement with the books of accounts;
- (d) In our opinion, the Balance Sheet, Profit and Loss account and Cash Flow Statement dealt with by this report comply with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956;
- (e) On the basis of the written representations received from the Directors as on March 31, 2010, and taken on record by the Board of Directors, we report that none of the Directors are disqualified as on March 31, 2010 from being appointed as a Director in terms of section 274(1)(g) of the Companies Act, 1956 ;
- (f) In our opinion and to the best of our information and according to the explanations given to us, the said accounts together with the notes thereon and attached thereto given in the prescribed manner, the information required by the Act, give a true and fair view in conformity with the accounting principles generally accepted in India :
 - (i) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2010;
 - (ii) in the case of the Profit and Loss account, the profit for the year ended on March 31, 2010 and
 - (iii) in the case of the Cash Flow Statement, of the cash flows for the year ended on March 31, 2010.

ANNEXURE TO AUDITORS' REPORT

Referred to in Paragraph 3 of our Report of even date.

1. (a) The Company has maintained proper records to show full particulars including quantitative details and situation of Fixed Assets.
(b) As explained to us, these Fixed Assets have been physically verified by the Management once during the year and no material discrepancies have been noticed on such verification.
2. (a) The stocks of Finished Goods, Stores, Spares, and Raw Materials have been physically verified quarterly during the year by the management. In our opinion, the frequency of verification is reasonable.
(b) As per the information given to us, the procedure of physical verification of the stocks followed by the management is generally reasonable and adequate in relation to the size of the Company and the nature of its business.
(c) The Company has maintained proper records to show full particulars including quantitative details of inventory. No material discrepancies have been noticed on physical verification of stocks as compared to book records. The discrepancies noticed, if any, have been properly dealt with in the books of accounts.
3. (a) The Company has not granted loans to any party listed in the register maintained under section 301 of the Companies Act, 1956.
The Company has taken unsecured loans from parties listed in the register maintained under section 301 of the Companies Act, 1956. The total amount of loan taken during the year was Rs. 7560.93 Lakhs comprising of 20 parties and maximum balance outstanding during the year was Rs. 4076.74 Lakhs and the amount outstanding at the end of the year was Rs. 2047.54 Lakhs.
(b) The rate of interest and other terms and conditions of such loans taken are prima facie not prejudicial to the interest of the Company.
(c) There are no stipulations made regarding repayment of Principal amount. However the payment of interest has been regular.
(d) The company has not given any loan. Hence the clause relating to overdue amounts is not applicable.
4. In our opinion, the company has an adequate internal control system commensurate with the size of the Company and the nature of its business for purchase of inventory, fixed assets and also for the sale of goods and services.
5. (a) We are of the opinion that the transactions made in pursuance of contracts or arrangements that needed to be entered in the register maintained under section 301 of the Companies Act, 1956 have been so entered.
(b) Transactions made in pursuance of contracts or arrangements under section 301 do not exceed the value of rupees five lacs in respect of any such party in the current financial year.
6. In our opinion the Company has complied with the provisions of Sections 58A and 58AA read with the Companies (Acceptance of Deposit) Rules, 1975 in respect of deposits accepted in the nature of unsecured loans taken, amounting to Rs. 160.89 lacs raised by the Company during the year and the Company has filed the copy of Statement in Lieu of Advertisement and necessary particulars as required with the Registrar of Companies, Mumbai.
7. The Company has internal audit system commensurate with its size and nature of its business.

	(i) Bank Guarantees	Rs. 5,00,76,000	Rs. 5,00,76,000
	(ii) Excise Refund Recognised as Income (Refer Note Below *)	Rs. 19,36,003	Rs. 63,41,853
	(iii) Disputed Income Tax Assessment dues	Nil	Rs. 13,69,643
	*Note:- The Company falls under 1st Schedule to Central Excise Tariff Act, 1985 (5 of 1985). The unit was set up after July 31, 2001 and hence eligible for Excise Refund benefit envisaged in Notification No:39/2001-CE dated July 31, 2001 as amended. The Company also duly applied to Central Excise Department for availing benefit under the said notification and the Department approved the same. The Company commenced commercial production of its first phase on April 04, 2005 with five manufacturing lines and doubled its capacity in January 2007 by adding five more manufacturing lines. The Department took the stand that the eligibility is only for the first phase and will not be applicable for the expansion phase. The Company was duly in receipt of Excise Refund on the first five lines till the financial year 2007-2008, however from financial year 2008-2009 onwards the Department rejected the Excise Refund claim even for the first five lines.		
	The company, while taking stand that the excise benefit should be made available for the second phase as well, provided for excise refund on the first phase on proportionate basis. Currently the matter is pending with CESTAT (Ahmedabad). The Company has recognised Excise Refund amount of Rs. 6341853/- in the year 2008-2009 and Rs. 8667688/- in the current year 2009-10 on this account, of which the company has received Rs. 11431016/- as excise refund from the Central Excise Department and Rs. 1642522/- are declared as non refundable by the Central Excise Department. Thus for the balance amount of excise refund recognised during the year 2009-10 of Rs. 1936003/- will not materialise if the appeal is not disposed of in favour of the company.		
	Claims against the Company not Acknowledged as Debts as on March 31, 2010 amounting to Rs. Nil.		

5	The Company had entered into an arrangement with Euro Ceramics Ltd in 2006-2007, one of its group Companies having its factory adjacent to the Company's factory at Bhachau, whereby Euro Ceramics Ltd recovered one-fifth of the capital investment cost incurred on its Power Plant Machinery and Building for sharing of power generated by the Power Plant. Euro Ceramics Ltd also recovers the operating expenses of running the Power Plant from the company on a monthly basis based on actual units of power consumed by the Company.
